POPE PIUS NOT VERY ILL.

Dr. Lapponi Says His Holiness Has Merely a Slight Cold.

Rome, Oct. 23.—A rumor spread through the city during the morning that the pope was ill. Dr. Lapponi, his physician authorized the announcement that "the statement is incorrect," the pope merely having a cold, so slight that it could scarcely be called an indisposition. Since his last attack of gout in January, his holiness, the doctor says, has enjoyed perfect health.

During the day the pope received over 200 persons. The fact that these audiences have not been suspended is the best evidence of the pope's good health.

Wages of Coopers Increased.

Indianapolis, Oct. 23.—A joint conference between employing coopers of several states and representatives of the Coopers' International union closed during the day. As a result of the deliberations the employers granted a slight increase in wages and fixed a working agreement.

LAUNCH HITS A BARGE

SIX OF THE OCCUPANTS OF THE FORMER CRAFT PERISH IN DELAWARE RIVER.

TUG RUNS DOWN A CATBOAT

FIVE PERSONS THOUGHT TO HAVE BEEN DROWNED AT SOUTH YONKERS, N. Y.

Beverly, N. J., Oct. 23.—A launch containing nine men, all of Philadelphia, collided with a barge in the Delaware river off this place late in the afternoon, resulting in the drowning of six of the occupants of the little boat. The other three were rescued by the crew of the tugboat Bristol, which was towing the barge when the accident happened. Those rescued are Captain John Winch, the owner of the launch, W. F. Russell and J. Rutherford.

The dead are: William Winch, John Ellis, John Stevenson, Samuel Heron, Norman Delaney and James Yonkers. The launch was hired by seven of the men, most of whom lived in the Northeastern part of Philadelphia. The elder Winch took his son along to assist him in running the boat. The day was spent near Croyden, on the Pennsylvania side of the river. The start home was made late in the afternoon. Opposite this place the launch met the tug Bristol in command of Captain Mott, which was towing a barge to Bordenstown.

Whether Captain Winch saw the barge is not known; nevertheless he attempted to cross the tug's stern. Captain Mott hailed him and tried to prevent him doing so. Captain Winch was standing at the wheel of the launch as he went around the stern of the tug. The hawser of the tug struck him and knocked him overboard. Before the captain's son or any other member of the party could take the wheel to steer the launch clear of the barge the latter struck the frail boat amidships, capsizing it.

The launch rolled under the barge and its occupants went with it. Captain Mott put the tug about and went to the rescue. He and his crew threw ropes and life preservers to the struggling men in the water, but they were only able to save three of them. The rescued men were landed here by the tug and cared for at a hotel. They left for Philadelphia late at night.

Captain Mott, assisted by several residents of Beverly, went in search of the bodies and were rewarded by finding three, but darkness put an end to the work.

The launch was washed ashore. It is badly wrecked.

TUG RUNS DOWN A CATBOAT.

Five Persons on the Latter Craft Supposed to Have Perished.

Yonkers, N. Y., Oct. 23.—Five persons, the body of one having been recovered, are believed to have been drowned during the day by the running down of a catboat by a tug off South Yonkers. Members of the South Hudson Boat club heard cries for help out on the river and in the heavy mist that prevailed were able to make out the outlines of a capsized sailboat and of a tug that was running rapidly down the river. The cries ceased before the yachtsmen, who had put out to the rescue in a rowboat, reached the catboat, which they found deserted and with her side stove in. In a coat on the boat was a list of names which proved to be those of a party who had gone sailing in the boat. They were Edward Nelson, owner of the boat; his son Edward, Benjamin Benson, P. Simpson and Carl Thompson, all of South Yonkers. During the evening the body of Benson was found not far from the scene of the collision. Nothing has been heard of the missing men.

GASOLINE LAUNCH EXPLODES.

Two Men Probably Drowned and Two Others Badly Burned.

St. Louis, Oct. 23.—A gasoline launch containing four passengers making its first trip on the Mississippi river exploded during the afternoon fourteen miles below the city and two of the passengers are believed to have been drowned, the other two being probably fatally burned. The missing are: Fred Phee and an unknown man. The injured are: Edward Duffy, Sr., and Edward Duffy, Jr.

Edward Duffy, Sr., and Fred Phee had constructed the launch and were making a trial trip with the new craft. Duffy's son and a friend of Phee's went along. After playing through the water for three hours the launch suddenly exploded and sank. Another launch in the vicinity succeeded in rescuing Duffy and his son, but Phee and his friend disappeared and are believed to have drowned.

Duffy said the explosion was caused by a leaking gasoline pipe.

NINE HEROES PERISHED.

Captain and Crew of the Minnedosa Sank With the Ship.

Port Huron, Mich., Oct. 23.—Nine heroes went down with the schooner Minnedosa. The hurricane sent mountainous waves to batter to pieces the wooden boat wherein eight men and one woman were imprisoned. The vessel creaked and groaned and timbers snapped. The bulwarks went over. The wind hissed through the rigging and sent it piece by piece into the lake. Great seams were opened and water poured into the schooner's hold.

Ahead tumbled the steel steamer Westmount, staunch and able. Behind pitched the Melrose, a frailer vessel than the Minnedosa and faring worse. The Minnedosa was going to the bottom. Every one of the nine human beings aboard her knew it. Why should they take others with them? Perhaps if cast loose the Melrose could save herself.

Captain Jack Phillips' voice rose in command over the howling storm. One of the crew held a sharp axe. It fell—and the blow set the Melrose free and she sailed on through the shrieking storm to safety. A few moments later the Minnedosa with its nine heroes and a cargo of 75,000 bushels of wheat lurched to the bottom off Harbor Beach, Lake Huron.

Those who went down on the Minnedosa were:

Captain John Phillips, Kingston, Ont.; Mrs. Phillips, the captain's wife; Mate Arthur Walter, Nova Scotia; George McDermott, Belleville, Ont.; James Allen, Nova Scotia; a passenger and three sailors, names unknown to the captain of either the Westmount or Melrose and whose homes are believed to be at Kingston.

CUNLIFFE ISSUES DENIALS.

Says Several Stories Told About Him Are Untrue.

Pittsburg, Oct. 23.—Edward George Cunliffe, the express robber, in a long interview in a local paper, denies that he took the odd \$1,000 with which he is charged in addition to the \$100,000 package and states that his object in going to Bridgeport, Conn., was to obtain employment on one of the oyster boats of the Bridgeport fleet, a plan that was frustrated by the fact that the boats were not working on account of some labor troubles.

He indignantly denies that he furnished a Bridgeport woman money to rent a flat, saying he spent his time in reading about and listening to comments on the robbery instead of royster about the tendorloin district.

He shipped the \$80,000 in a suit case to Bristol, he said, in care of the express company, figuring on that as the most unlikely place the detectives would search, and when questioned as to the \$11,000 still missing evaded reply by railing against the fate which led to the discovery of the \$80,000.

Cunliffe denounces James Missett of Bridgeport, who informed the Pinkertons of his whereabouts, as a "knocker" and said he made preparations to skip immediately after meeting Missett, but was detained by an attack of cramps.

He vigorously denied offering Detective Arnold \$10,000 "or even forty cents" as he put it.

Eisenman, to whom he entrusted the bundle containing \$9,500, also came in for a scolding from Cunliffe, who concluded by remarking: "Well, they can't hang me."

ENDS HIS LIFE BY HANGING.

Professor Judd Commits Suicide in Garret of His Home.

Baltimore, Md., Oct. 23.—Professor Sylvester Dwight Judd, aged thirty-five years, formerly an assistant in the United States geological survey at Washington and professor of biology at Georgetown university, was found early in the morning hanging by a rope from a rafter in the garret of his home on the old Frederick road, he having committed suicide.

About a year ago Professor Judd, owing to mental trouble, lost his government position. He was sent to an asylum, where after having been treated for melancholia and homicidal mania for about ten months, he appeared to be much improved and was discharged about two weeks ago. That he had contemplated suicide was known. Professor Judd was the son of the late Charles Dwight Judd of Hartford, Conn.

Excitement Proves Fatal.

Minneapolis, Oct. 23.—Samuel A. Minto, clerk at the Commercial club, lost his life in a fire in the Lindley block, Seventh street and Nicollet avenue, during the morning. Several people had narrow escapes from death in the smoke and flames and were saved only by the heroic efforts of the firemen and police officers. After warning other occupants of the building to escape, Minton fell on the stairs and died of heart disease due to the excitement.

Husband and Wife Held.

Wausau, Wis., Oct. 23.—Fred Ohls and his wife have been ordered held by the coroner's jury, which has been investigating the death of Ida Gutmeier, whose body was found in the woods near here by hunters. The jury declared that the girl died in their maternity hospital.

RAILROADERS STRIKE

TRAFFIC ON SEVEN BIG LINES

OUT OF MOSCOW COMPLETE.

LY PARALYZED.

THREATENED WITH FAMINE

CHIEF COMMERCIAL CITY OF RUSSIA

ALREADY FEELS EFFECTS OF STRIKE.

Moscow, Oct. 23.—Traffic on seven of the nine main trunk arteries of commerce radiating from Moscow was completely paralyzed during the day by the railway strike and the commercial heart of Russia has been shut off from all communication with the rest of the empire, except with the narrow section to the northwestward, including St. Petersburg and the Baltic provinces. Though the government has ordered the railroad battalions of the army to proceed to Moscow and take the places of the strikers for the purpose of restoring traffic, the revolutionists by a sudden and unexpected blow have shown their ability to lay their hands on the throat of the nation's commercial life.

The employees of four railroads struck during the day and only the lines running over the Nikolai road to St. Petersburg and over the Windau and Rybinsk road to Riga and other Baltic ports are open. Traffic is at a standstill on the Kazan line and on the line to Yaroslavl and Archangel.

The strikers during the day forced the employees of the general offices and financial departments of three lines, the Windau and Ribinsk, the Moscow and Brestlitovsk and the Kieff and Voronezh, to quit work. The city is already feeling the effects of a milk and meat famine and a few days continuance of the strike will cause serious embarrassment and even suffering to the population. The renewal of the factory strikes is not improbable.

An important development was the strike on the Brest-Litovsk road, which runs to Smolensk, Minsk and Warsaw and carries international traffic from Moscow to Germany, Austria and other parts of Europe. Communication with points abroad, however, is still open by way of St. Petersburg and Pskoff.

STEAMER PROGRESS IS SAFE.

Arrives at the Soo Four Days Behind Schedule Time.

Cleveland, Oct. 23.—A telegram was received here during the day by the captain of the Corrigan fleet stating that the steamer Progress, which was four days overdue, has arrived at the Soo. She left Ashland late Sunday with ore for Cleveland.

The steamer W. H. Parker, one of the Gilchrist fleet, was run into by a Canadian towboat at Lime Kiln crossing near here during the day and was damaged.

The body of Fox, one of the wheelmen of the steamer Sheldon, which was lost off Lorain Friday, was picked up by a fish tug ten miles west of Lorain during the day.

No more marine disasters have been reported to the lifesaving station at Cleveland. It is estimated that at least twenty-one lives were lost and forty-two vessels were either sunk or badly damaged during the storm on the lakes.

CAR HITS A LOADED WAGON.

Two Children Killed and Eight Other Persons Injured.

Indianapolis, Oct. 23.—Two children were killed and eight other persons were injured, three fatally, in a crossing accident two miles north of Southport at night when car No. 9 on the Indianapolis, Columbus and Southern traction line struck a wagon loaded with a party returning from the country, where they had been gathering nuts. The dead are:

Jennie Russell, aged ten, and Harvey James, aged thirteen.

The injured are Fred Hipe, wagon driver; Mrs. Sadie Russell and Mrs. Lydia Morrison, all of whom may die; Walter Warrenburg, Twannett Russell, Nellie Russell, Harley Russell and Lillian Morrison.

At the place where the accident occurred a sharp curve terminates at the top of an incline which hid the wagon from the view of the motorman until it was too late to stop the car.

WITH ALL ON BOARD.

Steam Trawler Gambetta Supposed to Have Sunk.

Fecamp, France, Oct. 23.—A dispatch from Ymuiden, Holland, reports the finding on Dogger Bank in the North sea of the wreckage of the steam trawler Gambetta, which left Fecamp Sept. 25 and was spoken Oct. 1 when sailing toward this port. The trawler has not since been reported and it is presumed her crew of twenty-four have been drowned.

Banker Dies While Hunting.

Heron Lake, Minn., Oct. 23.—Wiley St. John, president of the State bank, died at night while hunting. The cause of his death is supposed to have been heart failure, caused by the shock of a sudden fall into the cold water of the lake. Mr. St. John went out on the lake in a boat at night and it is thought that he fell overboard. He crawled back into the boat and died.

Leishman Files a Protest.

Constantinople, Oct. 23.—Mr. Leishman, American minister, has addressed a note to the porte, protesting against the violation, involved in the retrial of Ghilrakis Vartanian, of the porte's assurances that judicial proceedings would be suspended pending the settlement of the questions of principle arising from Vartanian's claim to American protection.

Yellow Fever in Mississippi.

Visksburg, Miss., Oct. 23.—Three new cases and one death was the yellow fever record for the past twenty-four hours. Three new cases are reported at Natchez. Both are mild cases.

PISTOL DUEL ON STREET CAR.

Three Men Engage in a Shooting Affray in New York.

New York, Oct. 23.—Three men fought a battle with pistols on an Eighth avenue car during the day and all of them were seriously injured. While the fight was being waged the car ran at top speed for half a mile, with the gong sounding an alarm, and the passengers lying flat on the floor to escape the shower of bullets.

Thomas O'Brien, a truckman, jumped aboard the car at Thirty-first street and, clapping a revolver to the conductor's head, ordered him to run the car full speed as he was pursued by a gang who intended to kill him. A moment later two more men leaped on the car and attacked the first, all three using revolvers. When their weapons were empty they clinched and fought with the butts of their pistols. The car rushed along the avenue, the motorman pounding the gong and the conductor shouting for the police, as far as Twenty-sixth street, where several policemen boarded it and seized the three combatants, all of whom were too badly injured to offer any resistance.

O'Brien was found to have received a bullet in the neck. His assailants gave the names of Henry Prang and Thomas Sullivan. The former had been shot in the neck and the latter in the leg and arm. The three were taken to a hospital.

O'Brien refused to explain why the other two attacked him. The police think that the affray was the outcome of a feud in a notorious West side gang.

ADMIRAL TOGO IN TOKIO.

Japan's Great Naval Commander Reports to the Emperor.

Tokio, Oct. 23.—Memorable in the annals of Japan was the public entry of Admiral Togo, who came here during the day to report to the emperor the return of his fleet from the war.

Admiral Togo was met by ministers of state, generals, admirals, members of the diplomatic corps and hundreds of officials and private citizens who extended him a warm welcome to the capital. He was accompanied by his staff and Admirals Kataoka, Kamimura and Dewa, together with their respective staffs.

The party entered five imperial carriages placed at their disposal and led by his majesty's aide, Admiral Inouye, drove direct to the palace, reaching there at 11 o'clock, when they were received in audience by the emperor.

Admiral Togo's carriage, escorted by a bodyguard of troopers, passed through a triumphal arch in front of the railway station. The streets were lined with an admiring crowd who shouted hearty banzais as the party passed along. The day was a beautiful one and all Tokio was out irrespective of age to welcome the victor of the battle of the Sea of Japan.

Admiral Togo, after his audience of the emperor, returned to his ship.

In receiving Admiral Togo's report the emperor warmly praised the service rendered by him, his officers and men.

MONDAY, OCTOBER 23, 1905.

THE county attorney at Bemidji has caused all saloons to close at eleven o'clock at night in compliance with the state law, and the Pioneer of that city intimates that the action is taken to influence the voters at the coming municipal election. Any spasm of reform due to desired political effect is worse than no reform at all as it stamps the would-be reformer as a hypocrite.

MAYOR O'BRIEN'S emphatic statement that there would be no more wide open policy while he is mayor should and does receive the hearty commendation of all good citizens. But what was meant by a more wide open policy is hard to understand, as the saloons are open continuously now, unless public and unrestricted gambling is desired. This step, if taken, would be truly demoralizing to all business interests, to say nothing of public morals, and would not help business one iota. It is true the gamblers, tin horn and professional, would probably have more money, but it would be at the expense of the unpaid grocery, meat and dry goods bill. To the credit of Mayor O'Brien it should be said, however, that this most demoralizing of public evils has been practically suppressed in the city, and his firm determination to continue the conditions cannot be too highly commended.

A STEP BACKWARD.

The proposition to open the stores and business places in the evening advocated by certain business men at the meeting held in the Commercial Club rooms on Thursday evening, would be a distinct step backward for a great many reasons, which are so evident as to be generally accepted everywhere.

First and foremost the closed place of business in the evening is conducive to happy family life, the foundation of the American home. The business employee can quit work with other wage earners and enjoy his evenings at home with his family as well as his employer, and the stores and other business places not being open, other citizens employed in shop and mill and even on the farm remain at home and are better men and citizens for the increased family association.

And in addition it is the experience of the majority of business men that it does not pay to keep open in the evening, the profit from the business transacted not being sufficient to cover the extra cost of keeping open, not to say anything of the longer hours of labor of the business man and his employees, and this small business is not lost to the merchants for they report that they get it in the day time when they close evenings. Of course this is not true for some classes of business, such as saloons, cigar stores and other refreshment houses, but it is true of almost every other line of business and as the greatest good to the greatest number is always the correct public policy, there will, undoubtedly, be no change made in evening closing of business places.

YELLOW FEVER SITUATION.

Mississippi Will Raise Quarantine Against New Orleans.

New Orleans, Oct. 23.—Following is the official yellow fever report up to 6 p. m.: New cases, 2; total, 3,361; deaths, none; total, 435; new focus, 1; cases under treatment, 73; cases discharged, 2,853.

While the above report is for the fifth consecutive day on which no deaths were reported, which in itself was a cause for much general satisfaction, the most gratifying information came in the shape of a telegram from the state health office of Mississippi that all Mississippi quarantines would soon be raised. It is believed that the Texas and Alabama restrictions will also be entirely removed in a short time.

There were no reports of new cases or deaths from the country parishes.

Florida Fever Report.

Pensacola, Fla., Oct. 23.—Yellow fever took an upward jump during the day and there were reported 12 cases and 1 death. The new cases are distributed in various sections of the city. The summary follows: New cases, 12; total, 478; deaths, 1; total deaths, 67; cases under treatment, 141; cases discharged, 285.

Ultimatum to Turkey.

Vienna, Oct. 23.—It is reported here that the powers intend to present a joint ultimatum to the Turkish government on account of its resistance to their financial control of Macedonia, and that if the ultimatum should be disregarded the powers will make a naval demonstration.

PLAN TO EXCHANGE SIGNALS

Mirror Ingeniously Used by Man and Woman in a City Prison.

Ingenious are the methods adopted by William Sampson, alias Allis, who is locked up in the felony department of the city prison at San Francisco, to get into communication with his wife and baby, who are under lock and key in the women's department under the charge of the matron, says the San Francisco Chronicle. These people, with their little baby, Charlie, two years of age, are suspected of being highway robbers who have worked with a horse and buggy in Golden Gate park.

Every night about 7:30 o'clock a party of women folks call at the prison to see Mrs. Sampson and Baby Charlie, who are held awaiting the outcome of the charge against the husband and father of attempted robbery some weeks ago. Mrs. Sampson's visitors are as regular as clockwork, especially since the police have ordered that she must be kept strictly away from her husband. They were there as usual the other night and sat to the left of the booking sergeant's desk, facing the big wall clock. The entire party watched the clock closely as they played with the little baby, who was armed with a toy balloon, a present from a man who had been arrested for peddling without a license.

Sharp at 8 o'clock Mrs. Sampson moved over to the end bench, right up against the misdemeanor portion of the prison, and this placed her on a direct line with the door leading to the felony ward. Policeman Maloney saw that she was smiling and waving signals toward the place where men charged with serious crimes are kept. He investigated. He found that the pair had a perfect code of signals and a mirror through which the husband and father might see and understand.

Sampson was up against the door of his cell with his right arm bared to the shoulder and squeezed through the narrow bars. His arm was stretched as far out as possible, and in his hand he held a large sized mirror. In this he could see his wife's image and read the signals she waved to him. On account of his bad left arm—the bullet that hit him had passed through his left shoulder—he was unable to wave his signals back to her. This function was performed for him by his cell mate, who was none other than William Rodie, the pseudo electrician who robbed a score or more of Oriental stores of fine silks and valuable trinkets about two months ago.

When Policeman Maloney discovered the system of the pair he informed the matron, Mrs. Ryan, of what was going on, and she will endeavor to sweat out of her prisoner the exact meaning of the signals.

THE ZAMBEZI BRIDGE.

Highest in the World and Built of Steel.

The Zambezi bridge, or the Victoria falls bridge, as it is variously called, is a record bridge in many respects, says J. Hartley Knight in the Engineering Magazine for October. It is the highest—420 feet—in the world, and it was built in the shortest time recorded for such a work—viz, nineteen weeks. Sir Charles Metcalfe also claimed that no other bridge of its size and capacity had ever been built so cheaply.

The total length of the bridge is 650 feet, of which the central span accounts for 500 feet between the pin centers on the two banks, the balance being made up of the two short spans. The great center span rises in a graceful parabolic arch to the center, the spring of which starts from the bases of the main booms. The vertical rise to the crown is 90 feet. The main span is made of twenty bays each 25 feet long, and lateral stability was secured by a wide spread at the feet of the bridge.

At the rail level the distance between girder centers is 27 feet 6 inches, whereas at the bases the width between pin centers is 50 feet.

The roadway projects beyond the side girders so as to allow a clear 30 feet between parapets. The bridge is of steel, and as it is coated with gray paint it is rendered as invisible as possible against the cloud of spray—"the smoke that sounds," as the natives call it—that rises from the falls, and the undue obstruction on the landscape which so many feared has thus been obliterated.

If You Would Be Chic, Wear Blue.

Would you be in the extreme of fashion? Wear blue. That is the decree of fashion making Paris, says the New York World. Blue, pastel blue, in all the rich variety of curious tints that the word stands for, is the reigning color. It fades into greens and often off to gray. It reflects a tint of gold, but it is always blue. In gowns, in hats, in fancy waists, even in wraps it prevails, and every advanced mode prophesies a tremendous vogue for it this season. Peacock blue, so long banished, has come back in its own; marine blue holds its own, and all blues are admittedly good by reason of pastel's predominance.

A Feature of President's Tour.

One of the features of President Roosevelt's southern tour will be his visit to Booker T. Washington's institute at Tuskegee, where he will deliver an address, says a Washington special to the New York World. The students will pass in review before the president. In the parade will be seventy-five floats illustrative of the academic, mechanical and agricultural development of the school and the negro. Nearly 1,500 students will precede the floats, and each will bear a stalk of sugar cane tipped with a cotton boll, both raised at the experiment station of the institute.

A FIERCE EARLY

MORNING BLAZE

Small Store and Contents Belonging to P. H. Preston Burned to Ground

ALARM TURNED IN AT 3:30 A. M.

Claim a Loss of \$100 or \$200—Carried Insurance Amounting to \$900

The members of the fire department were routed out this morning as early as 3:30 o'clock, an alarm being sent in from S. E. Brainerd from the home of Policeman P. H. Preston. A small store conducted by Mr. Preston on East Oak street was discovered on fire, and before assistance could be secured the store and its contents were consumed. The fire department did good work, however, in saving the residence in which the family lived, which is in close proximity to the location where the store was, also the other adjoining buildings. The home of Mr. and Mrs. Preston was only slightly damaged.

The origin of the fire is not known, but it is supposed to have started from a stove in the building. The loss on stock and building is claimed by Mr. Preston to be valued at from \$1100 to \$1200 and he carried a total of \$900 insurance.

Why Rossini Wept.

When Meyerbeer died his son composed a funeral march which "remembered his dead father." Full of emotion, the young man took it to Rossini. "Play it, maestro," he pleaded; "play it. I wrote it in expression of my grief and mourning for my dead father."

Rossini took it up, placed it on his piano and played it. Tears rolled down his cheeks. Utter sadness dwelt upon his countenance.

"You weep," cried young Meyerbeer, beside himself with joy at the effect upon the great master.

"Yes, I weep," rejoined Rossini amid tears.

"And why?" "Because," replied Rossini, "I am wishing that you were dead and it was your father who had written the funeral march."

First Typesetting Machine.

In answer to the query, How old are typesetting machines? The London Chronicle prints an extract from a copy of the Birmingham Herald of 1823: "Dr. Church is now at Birmingham preparing his new printing machine. The compositor has only to sit down at this curious mechanism as he would at a pianoforte, and as he strikes the keys the types all fall from the case into their proper places with a velocity that keeps pace with the most rapid speaker. The form having been worked off, the type moves into the melting pot, from which it is returned, recast into its original state without any diminution of material and thence distributed into the case quite new. One of these machines placed at the bar of the house of commons would always insure a correct report of the debate. Dr. Church, the inventor, is a native of Boston, in New England."

A New Motor Roadway.

A roadway or track for motor propelled vehicles has been invented recently by Dr. T. A. Johnson of Xenia, Ill., which promises a valuable means of transportation, says the St. Louis Post-Dispatch. It consists of two parallel tracks of concrete, formed so as to present an outer flange, and a broad roadway, with a strengthening rib running down into the ballast, which has been rolled firmly in the ditches previously excavated. This roadway is designed for motor vehicles, both passenger and freight, the cars having rubber tires. The track can be used as a toll line for automobiles. The inventor has also a device which can be attached to the steering lugs of the vehicle, preventing contact of tires with flanges and obviating steering by motorman.

For Universal Two Cent Postage.

John Henniker Heaton, Conservative member of parliament for Canterbury, known as the "father of the imperial penny postage," published recently a strong plea for a universal two cent postage. "An international halfpenny (one cent) postage on printed matter already exists," says Mr. Heaton. "If two ounces of printed matter can be sent anywhere for a halfpenny, why should not a half ounce of written matter be sent for 1 penny?" Mr. Heaton says he spent several days in June with John Wanamaker, former United States postmaster general, discussing the scheme and adds, "Mr. Wanamaker visited Whitelaw Reid, and I know that the result of their deliberations will give new interest to the movement."

MURDERED MAN AT WATERTOWN

May Have Lived in Brainerd or
Has Relatives Here Accord-
ing to Testimony

KILLED IN A SALOON ROW
Went by Name of Archie Bailey,
But it is Not Thought that
Was Right Name

Chief of Police Simmons has received a letter from Sheriff W. W. Waddell, of Watertown, S. D., in which he is informed that a man who went by the name of Archie Bailey was murdered at that place a short time ago in a saloon row and that it is believed the man lived in Brainerd or has relatives here.

From the letter it is presumed that this fact was brought out in the testimony at the inquest.

A picture of the dead man was sent with the letter, but so far his identity here has not been established.

The man belonged to a threshing crew and the crew were in a saloon at Watertown drinking. A row occurred in the place and Bailey was killed outright. He was a powerfully built man, weighing about 225 pounds, had a sandy complexion and was 38 or 40 years of age. He is lying in a vault at Watertown waiting identification.

Chief Simmons has the photograph and it is requested that anyone who has a relative who answers this description call and view the photo.

CASS COUNTY SCHOOLS

Are Forging Rapidly to the Front Says Supt. Olson, of That County, Who Was in the City

Supt. Olson, of Cass county, who was in the city Monday, says that the country schools of that county are rapidly multiplying. The county has now 100 rural schools, a few more than Crow Wing county can boast of. Mr. Olson states that his county is also getting strictly in the swim in the matter of good permanent roads. One township has made about sixteen miles of permanent roads and other towns are following it close.

Women Who Force Themselves to Work

Women Who Suffer from All Manner of Uterine and Ovarian Troubles, Weak, Nervous, Bloodless, Melancholy Women Find a Positive Cure in

DR. A. W. CHASE'S NERVE PILLS

Every day sees an army of worn out women dragging themselves to work or forcing themselves to attend to their household duties—women whose trouble lies in an overstrain or over-exertion at some time in the past—women who stay in this condition and think themselves beyond repair, because they know nothing of the wonderful power of Dr. A. W. Chase's Nerve Pills to give them back their health, strength and vitality, by their ability to re-supply the lost nerve energy, to build up the system, to manufacture good, rich blood, and give increased weight by making the digestion strong and vigorous.

Mrs. Ella Smith, of No. 43 Miller St., Newark, N. Y., writes:

"Last summer I was so weak I staggered when I walked. I was very nervous, easily excited, could not rest nights, blood thin, appetite poor, and hands trembled—I was in a low state of health. About this time I got a box of Dr. A. W. Chase's Nerve Pills and though everything else had failed, these pills put me on my feet in good health, and that quickly, too. It was not long before I was eating and sleeping well—the nervousness and trembling gone—the blood rich and my strength back. They are a grand medicine and I feel vigorous and strong in every way." 50c a box at dealers or Dr. A. W. Chase Medicine Company, Buffalo, N. Y. Portrait and signature of A. W. Chase, M. LOOK OVER THE BRAINERD MILL

South Muscatine Lumber Co. People Spent the Morning Here On business

WILL BUY LARGE TIMBER TRACT

Deal May be Closed for Brainerd Mill to be Converted Into Box Factory

O. A. Bryant, manager and C. L. Lindner, secretary of the South Muscatine Lumber company, were in the city this morning and among other things that they did that might be of interest was to look over the Brainerd Lumber company mill. The gentlemen are, it is understood, negotiating for the purchase of a large tract of timber land north of here and in event this deal is closed they will dicker for the Brainerd Lumber company mill.

Their plan would be to ultimately convert the mill into a box factory. They have several of these factories now and as one of the gentleman remarked this would be an ideal location for another, as there are all kinds of logs in northern Minnesota that are worthless for anything else except to saw up and put into boxes.

After inspecting the mill here the gentlemen left for Minneapolis this afternoon.

PAUL OF RUSSIA.

His Assassination Was Like the Ending of Julius Caesar.

The 25th of March, 1881, was the day on which the Emperor Paul of Russia was assassinated. Paul had received some whispers of the plot against his life and had arranged to leave St. Petersburg the following day and go to Moscow, where he fancied he might be safer. On the evening of the 25th he retired to rest at an early hour that he might thoroughly rest himself before commencing his journey. At 11 o'clock about a score of the conspirators—officers holding high rank in the army—appeared at the gate of the palace. It was closed, but the officers presented an order, signed by the emperor himself—or, rather, with a forged signature attached—and, informing the sentinel that they were called to hold a council of war with the czar, were admitted.

The emperor's aid-de-camp was one of the foremost of the conspirators and went in advance of the others to Paul's bedchamber, before the door of which was a Cossack soldier on guard. "The emperor sleeps," said the man. "I must rouse him. There is fire in the city," replied the treacherous aid. The Cossack, seeing others push forward, shouted out to alarm the emperor and immediately fell, pierced by the swords of the conspirators. Paul attempted to bolt the door, but being unable to do so seized his sword and turned boldly on them. "What is your design?" he demanded of Count Plato Zouboff, "and what do these men want who are with you?" "We demand your abdication," replied Zouboff, who then read a formal deed, which had been previously prepared.

"What! Do you, who have been loaded with bounties by me, turn this upon your master?" said the emperor. "You are no longer our master," replied Zouboff. "The nation has provided you a successor in the shape of your son Alexander."

Paul at this raised his sword, and the conspirators, who had not expected him to show so much courage, drew back, with the exception of a man named Beningsen, who urged the others forward, saying:

"If you hesitate, you are lost."

Then Count Valerian Zouboff struck the first blow, and the others quickly followed his example. As Paul still struggled an officer's sash was passed around his neck, and the life was choked out of him, his last words being: "And you, too, my Constantine!"

MUSIC AND DRAMA.

MR. DANIEL SULLY

An attraction of interest to theatre-goers is the Western comedy drama, "Our Pastor," in which Mr. Daniel Sully and his company will appear at the Brainerd house, Tuesday Oct. 31.

This is a story of Idaho, the scene being laid in a rough-and-ready cattle town where a census of good citizens and tough characters would show the latter in a large majority. Jim Carter, a wealthy ranchman who is the recognized boss of the town, is in love with his ward, Margaret Manning, a pretty girl many years his junior. The young lady is secretly engaged to a youthful mining engineer, Arnold Leslie, and when Carter learns this he proceeds to make the course of true love as rocky as possible. Father Daly, pastor of the struggling little Boom City church, intervenes and eventually succeeds in straightening out matters to the satisfaction of most of the parties concerned. His efforts are not always appreciated and he meets with a great deal of very unkind treatment in the course of his labors, but in the end his efforts are crowned with success, and he has the satisfaction of knowing that he has averted bloodshed and made a number of people very happy.

The role of Father Daly in "Our Pastor" gives Mr. Sully great opportunities for the display of that rich celtic humor which is characteristic of his comedy methods.

ROBERT FITZSIMMONS

Robert Fitzsimmons, the wizard of the prize ring, will be at the Brainerd opera house in a short time. He is starring in "A Fight for Love" and is making good on the stage.

MISS ADELAIDE THURSTON.

A strong play, played by a dainty, charming and clever woman—that is what "The Triumph of Betty" is as presented by Miss Adelaide Thurston. The charm that she exerts over her audience is never for a moment lost. Miss Thurston as Betty Bartlett is engaging. The role permits of a wide variation in its presentation of a girl of the west. Miss Thurston is always adequate. In her lighter moments she is delightfully crisp and bright and her more serious lines are given with a dignity and force that contribute to their naturalness and effectiveness.

A GREAT WEAPON.

Brainerd People Cannot Fail To Appreciate Its Value.

Only one weapon, To fight backache—The weapon that strikes the cause. Doan's Kidney Pills strikes the root. Their work in Brainerd proves it. You read of cures made years ago. And the cures were lasting cures. Read the following:

Philip O'Neil, of 516 Norwood St., Brainerd, Minn., says: "Brainerd people have seen in the local papers the testimonial I gave in 1898, recommending Doan's Kidney Pills, and many times I have been called upon to corroborate that statement in personal interviews. My confidence in Doan's Kidney Pills has not been lessened during the past six years. It has shown itself equal to all the claims made for it. I was a sufferer for a long time from backache and pains in the loins. The kidney secretions were too frequent and much discolored. The trouble became worse and worse and nothing helped it until I got Doan's Kidney Pills at H. P. Dunn & Co.'s drug store. I used this remedy faithfully until the annoyance from the kidney secretions ceased and the pains and backache disappeared. The cure then effected has been most gratifying and altogether permanent."

"UMPIRE STATE" STOVES FOR WOOD

OUR CLAIMS FOR SUPERIORITY

Of these stoves over all others are based upon the following exclusively new features:

FIRST—Only Tamala air-tight that does not smoke and spit flames when top feed is opened, or puff, roar and explode while in operation.

SECOND—Jointless, corrugated, all cast iron bottom, having a pit of 6 inches deep, in which the fuel burns without any possibility of leakage.

THIRD—Perfect draft regulation and adjustment by means of our patent screw register in the oval air tight fitted ash door in the pit. The opening for this door is arranged so as to permit the easy and cleanly removal of the ashes, and avoid dust when door is open.

FOURTH—Mounted with lasting and heavy corrugated sheet steel of the highest quality.

FIFTH—Heat deflecting rings surrounding entire stove, and producing wonderful floor heating.

SIXTH—Cast-iron main top with two cooking holes in 24 and 28, and a supplementary swinging feed-top in 18 and 22.

SEVENTH—Check register in pipe collar.

EIGHTH—Handsomely nickel-plated foot rails, urn and nickel panel, knobs, screw register, and nickel swing top.

NINTH—Has cast-iron front, fitted with a circular 12 inch door for feeding.

TENTH—Pipe collars made to receive inverted stove pipe, to avoid exterior leakage of creosote, which is inevitable in a thoroughly air-tight stove.

Confers With Bankers Regarding Panama Canal Bond Issue.

New York, Oct. 20.—Leslie M. Shaw, secretary of the treasury, was in Wall street Thursday. His mission, according to report, was to confer with Wall street bankers in regard to the flotation of the Panama canal bond issue and to see the bond dealers concerning the legislation necessary to make the bonds marketable at the price agreed upon when the issue was determined.

Among these bond dealers it was said that the legislation which Secretary Shaw proposes to ask from congress on the Panama canal issue will have to include a reduction in the tax on circulation which may be issued against the Panama bonds from 1 per cent to one-half of 1 per cent. If this is not done, it is pointed out, the new bonds cannot be sold at the price determined upon when the issue was authorized. If the tax is reduced the new bonds will be on an equal basis with the present consolidated 2s so far as bank note circulation is concerned.

Turkish Criminal Court Sentences Him to Death for the Second Time.

Constantinople, Oct. 20.—Ghikis Vartanian, who claims to be a naturalized American citizen, was Thursday again sentenced to death by the criminal court at Stamboul for the murder of a prominent Armenian merchant, Apik Undlian, in the Galata quarter of Constantinople, on Aug. 26.

Alfarian, another Armenian, who also claimed American citizenship, and who is charged with participation in the plot to assassinate the sultan on July 21, when a bomb was exploded as the sultan was leaving the mosque, killing about forty persons, was sentenced to fifteen years' imprisonment.

Vartanian and Alfarian were sentenced to death for the crimes charged against them, but owing to the intervention of Mr. Leishman, the American minister, the sentences were quashed and new trials ordered.

Emperor William Has a Narrow Escape from Injury.

Berlin, Oct. 20.—Emperor William had a narrow escape from serious injury Thursday evening. His majesty was crossing the street in front of the castle in his motor car, when an automobile cab approached at high speed. The chauffeur of the emperor's car saw the cab when it was almost upon him and turned his machine sharply. The cabman at this moment also saw the danger and threw the brakes on with full force. Nevertheless the two machines collided with considerable shock.

Emperor William's car took him into the court of the castle. The other car was disabled.

EXCEED DIRECT LIABILITIES.

Receivers File Report on the Assets of C. J. Devlin.

Topeka, Kan., Oct. 20.—The report of the receiver filed Thursday in the

United States district court showed the assets of the various properties of C. J. Devlin, who failed last July, to be \$4,956,945, and the direct liabilities \$4,592,208.

This indicates that the assets amount to nearly \$500,000 more than the direct liabilities. There is listed, however, \$1,409,437 in contingent liabilities, for which the receivers do not know whether they are liable or not. Should it be necessary to pay these the liabilities will exceed the assets by \$674,629.

Chicago Woman Murdered.

Chicago, Oct. 20.—Mrs. Lizzie McCluskey, forty-three years old, living at 456 West Madison street, was shot and instantly killed by an unknown person early Friday morning. She was called to the rear door of her flat and shot twice. There is no clue to the murderer.

ITS WORK IS ENDED.

Twenty-third Lake Mohonk Indian Conference Closed.

Lake Mohonk, N. Y., Oct. 21.—With the singing of the hymn "God Be With You Till We Meet Again," the twenty-third Lake Mohonk Indian conference closed at a late hour Friday night. In size and in importance of speakers and topics it is said by those in attendance that it was among the best of the series. Dr. W. F. Slocum, president of the Colorado college, and W. H. McElroy of New York voiced in appropriate terms the appreciation of the 200 guests of Mr. and Mrs. Smiley, who have been the hosts of the delegates at the conference. Mr. Smiley replied by inviting his guests to return next October.

This evening was devoted to the discussion of religious work in Indian schools and to the adoption of the platform.

EXCLUSIVE CONTRACTS EXIST.

Shippers at the Mercy of the Private Car Lines.

Washington, Oct. 21.—The existence of exclusive contracts between railroads and private car lines, by which the latter assume the business of refrigerating perishable freight, was brought out strongly Friday in the hearings now in progress before the interstate commerce commission. It was developed by the testimony of H. M. Emerson, traffic manager of the Atlantic Coast Line, that the shippers would be compelled under the contract with the Armour car lines to use cars of this company exclusively or the railroad would not transport their freight. At the same time he said, the schedules of the road would permit the use of other private cars and that the apparent inconsistency is a matter that the legal department of the road would have to solve if brought into controversy. Officials of the Central of Georgia, the Southern, and the Seaboard Air Line testified that the Armour Car Lines have exclusive contracts with their roads to handle all refrigerator business.

ON TOUR OF ALABAMA

PRESIDENT ROOSEVELT CONTINUES HIS JOURNEY THROUGH THE SOUTH.

WILL GET A PEACE MEDAL

UNIQUE GIFT TO BE PRESENTED TO THE CHIEF EXECUTIVE AT MOBILE.

St. Augustine, Fla., Oct. 23.—President Roosevelt started during the night for his tour of Alabama. He left St. Augustine at 9 p. m. and is not scheduled to make a stop of any length until he reaches Mobile. His day in St. Augustine was quiet. He attended services in Presbyterian Memorial church at 11 o'clock. The pastor, Rev. James Coffin Stout, preached from the text, "Worthy the Lamb That Was Slain." He made no reference to the president in his sermon. The church was crowded. At the conclusion of the service the president was taken for a short drive about the city. After luncheon, the president, accompanied by Secretary Loebe, Surgeon General Rixey, John McIlhenny and John Greenway, the last two of whom have been his guests on the trip south, drove to Fort Marion, where they boarded a launch and went to Anastasia island. Here the party donned bathing suits and had a bath in the salt water.

The president greatly enjoyed the bath and seemed in excellent condition to tackle the hard work that lies before him this week. When the party left the hotel for the fort, the mounted policemen of St. Augustine who had been waiting in front of the hotel, started ahead as an escort. The secret service man, who was on the box with the driver of the president's carriage, said to one of them:

"We don't need you now."

Officers Accompanied the Party.

"That's all right," responded the officer, "we will go along."

They galloped to the fort, where they stood attention while the president boarded the launch and steamed away.

Dinner was served at the hotel at night after which the president drove to his train.

St. Augustine was full of strangers, attracted by the presence of the president. A large crowd lingered around his hotel all day, anxious to catch a glimpse of him. He received but few visitors, however, and got the rest of which he stood in need.

This week will see the end of his trip. After visiting Mobile he will visit Tuskegee, Montgomery and Birmingham, Little Rock, Ark., and New Orleans, leaving the last named city on a government vessel for Washington.

President Roosevelt on his arrival at Mobile will be presented with a medal and badge that for its uniqueness will not be duplicated by any other Southern city that he visits on his present tour. The medal consists of a gold bar with the words: "Mobile, Alabama," inscribed on its surface, and below is a gold magnolia, the flower of the Gulf States, and a symbol of peace. On another bar near the flower is the inscription, "Blessed be the peacemakers." The presentation will be made by Judge Oliver J. Semmes, son of the famous Confederate admiral, Raphael Semmes.

ROBBERY AND MURDER.

Justice of the Peace of a Pittsburg Suburb Victim of Thugs.

Pittsburg, Oct. 23.—Justice of the Peace Daniel J. Kelleher of Beechwood borough, a local suburb, was found lying unconscious beneath a bridge near his home at midnight and died during the day without regaining consciousness. His watch, money and papers were missing and the authorities believe he was robbed and thrown over the bridge and are looking for two men who were with him in the evening.

Prominent Wisconsin Man Dead.

Beloit, Wis., Oct. 23.—Serenio T. Merrill died during the day, aged ninety years. He came to Beloit in 1846, and was the first teacher in Beloit college, member of the original board of trustees and a life member of the board. He built the first paper mills in Beloit and was engaged in the iron industry and other business. He held various city offices, and was a member of the Wisconsin legislature in 1876 and 1877.

Kills His Brother-in-Law.

Plattsburgh, N. Y., Oct. 23.—George Stadler was shot and killed by Frank L. Busche, his brother-in-law, at the Busche home late at night. Stadler was shot while trying to force an entrance to the house where his wife and children had taken refuge after he had threatened to kill them. A coroner's jury acquitted Busche.

British Officers Released.

Tangier, Oct. 23.—The scout ship Pathfinder has arrived here with Captain Crowther and Lieutenant Hatton, the British officers who were captured by Moroccan tribesmen. The liberation of the officers was effected through the good offices of the sheik of Wazzan and in exchange for the brigand Vallente.

EVIDENCE OF INCENDIARISM.

Fire Originates Simultaneously in Three Places at Ridgeway, Pa.

Ridgeway, Pa., Oct. 23.—Fire originated simultaneously in three places in the central part of the borough late in the night, destroying the buildings in which it started. The opera house, the finest in this section, was burned, the loss on the building amounting to \$60,000. Two barns were also destroyed, in one of which was a horse and vehicle belonging to a local baker. There is unmistakable evidence of incendiaryism. Reports of supposed house-breaking resulted in the calling out of the militia. No arrests have been made.

NANSEN IN COPENHAGEN.

Will Interview Prince Who May Become King of Norway.

Copenhagen, Oct. 23.—Some excitement has been caused here by the sudden arrival of Fridtjof Nansen, the Arctic explorer. It is supposed that he comes on a mission from the Norwegian government to remove the difficulties in the way of acceptance by Prince Charles of Denmark of the throne of Norway.

He immediately conferred with various members of the ministry and will interview Prince Charles, who is credited with being averse to accepting the throne unless his candidacy is supported by a Norwegian referendum.

A Most Wonderful Cure.

Joseph D. Underhill, of Doland, S. Dakota, says:—I have received great benefit from your White Wine of Tar Syrup. I had a deep seated cough and the doctors gave up all hopes of my recovery and pronounced it consumption. I tried everything that we could hear of. Finally one of my friends prevailed upon me to use your White Wine of Tar Syrup. I used 1½ bottles and am entirely cured. Such medicine I can recommend to those who were afflicted as I was.
